

Intro to the Jamictionary

Dear reader,

This is a short intro to the "Jamictionary" : a compilation of music scores mixing some of the most frequently danced tunes in the European Balfolk festivals and some of the most frequently danced tunes in regional folk scenes. This database is designed to be used in multiple ways :

- As a leadsheet for the live performance in a jam session.
- As a collaborative database for dance music.
- As a music reading and training tool.
- As an enabler of transformation in the instrument hierarchy of jam sessions.
- As a discussion starter on how broken is the concept of traditional music databases.

There are currently 2 versions of the database : v.1 is named "Jamicionario" and the v.2 is named "Jamictionary". Only V.2 will remain after the transition period.

- V.1 : A Portugal-based Muscores and PDF-file database, lasting from 2022 to 26. If you're reading this introduction, V1 is the database next to it.
- V.2 : A International website in English language, starting on 2026.

What's inside :

V.1 :

- The goal of the "Jamicionário" is twofold :
 - To achieve a minimum common repertoire in the Balfolk jam sessions throughout Portugal.
 - To raise the local cultural and performance bar by introducing an organised map of the very extensive European folk and neo-folk dance music.
- It follows the blueprint of jazz's reference jam session book, "The Real Book." It then abandons the binding to exist as a shared folder on the internet that you can save on your computer. Each tune has two files: a PDF file and a MuseScore file. MuseScore is a software that allows you to edit the tunes, so you can create multiple versions of one score. There are no standards for the tunes : the melodies and chords I've provided are only suggestions. The software opens the door for the music jam be coordinated by any instrument as it makes real-time transposition of any music a possibility.

V.2 :

- The goal of the Jamictionary will be threefold :
 - To provide an central database into European trad. and neo.trad dance music focused on performance and jam sessioning.
 - To achieve a minimum common repertoire in the Balfolk jam sessions throughout Europe.
 - To raise the cultural and performance bar by introducing an organised map of the very extensive European folk and neo-folk dance music.
- It will follow the blueprint of Irish trad. music reference website, thesession.org. The website is now under development and will develop the architecture of "thesession" website by adapting to the complexities of music genres of European music and the challenges they present to adapt into the format of jam sessions.

How it is organised

The database owes its name (the amalgamation of Jam and Dictionary) to the organisation of the content. It is divided into 2 main categories :

- Dance families (mazurka, waltz, bourrée, etc.), organised in alphabetical order. Most tunes belong to this category. They are often further organised into subcategories (i.e., the two-time and the tree-time bourrée).
- Singles. This exceptional category incorporates the tunes that are specific to a single dance (Mardi Gras, Alunelul, Rumelaj, etc.). This separation between dance families and singles already exists in traditional Irish folk music, and they refer to "singles" as "set dances." The singles are not reorganised into subcategories.

An Dro : d'Alan *Alan Stivell's*

Comp. : Trad. Brittany region, France

Disc. : Alan Stivell

Notes : Very simple melody played by the Breton harpist Alan Stivell at the concert at the Olympia hall (Paris) in 1972. This was a special gig because it marked the beginning of the "Celtic" music trend in France. There isn't a documentary that doesn't mention it, by Toutatis! Attention: Traditional Breton songs unfortunately have no names; this title was given by someone who wanted to categorize the melody. This tradition causes a lot of confusion and makes it extremely difficult to search for Breton music in databases.

♩ = 170

The musical score is written in 4/4 time with a key signature of one flat (B-flat). It consists of three staves of music. The first staff begins with a boxed 'A' and contains the melody for measures 1-4, with chords Am, G, Am, and a first ending (1.) with chords G and Am. The second staff begins with a boxed 'B' and contains the melody for measures 5-8, with chords G, F, Am, Am, F, G, Am, and G. The third staff contains the melody for measures 9-12, with a first ending (1.) with chords F, G, and Am, followed by a second ending (2.) with chords F, G, and Am, and then two measures of whole rests.

Notes : An Dro in 4 parts, which is unusual. I don't know if it's a combination of two An Dros by An Triskell, or if it was originally composed this way. An Triskell was a traditional Breton music band founded in 1970, which gained considerable popularity in the 1970s and 1980s. Arin-Arin : Untitled #1

Comp. : Trad. Basque Country region, Spain

Disc. : Duo Absynthe, Orontes Project

Notes: Arin-arin in Basque means "light-light," suggesting a fast and technically difficult step to dance. Arin-arin is a dance that always follows the Basque Fandango, an isolated case among fandangos. It's also curious because the Fandango is in 3/4 and the Arin-arin in 2/4, meaning the two are not very musically related. This version follows that of Duo Absynthe, and may differ from traditional Basque arrangements.

Comp. : Luiz Gonzaga (Brazil) em 1947

Disc. : Luiz Gonzaga

Notes : Baião is the tune type, Forró is the dance associated with it. This is perhaps the most played tune for Forró dance ever. This is also a song with suprisingly sad lyrics, it tells the story of someone who has to leave the Sertão area of Brasil because of a draught. "Asa Branca" is the short name of a South American pigeon, the *Patagioenas picazuro*, and in the song he also flees the draught.

Disc. : Dougie MacLean

Notes : "Big circle" is the original name given by the choreographers to the mixer dance 99% of Balfolkers wrongly name as "Circassian circle" which is in fact a dance from the British isles. To confuse matters even further, the Circassians are a Caucasian ethnic group! Oy! This is an extremely famous tune because of its use in the main themes of the movie "The last of the Mohicans". In the 1990s and 2000s Irish pub sessions this would be the most requested tune by the merry audience. But the tune popularity sank when then came the Titanic movie made surface!

Disc. : Linda de Suza, Amália Rodrigues

Notes : Perhaps the best-known song in Portugal. As for the word "malhão": the "malho" is a tool (with two sticks) used to beat corn ears and separate the kernels. "Malhão" would be an augmentative form of "malho", which for some reason remained historically associated with the dance.

Brazilian Mazurka : Luíz Gonzaga's

Comp. : Luiz Gonzaga (Brazil)

Disc. : Luiz Gonzaga

Notes : The Polish mazurka migrated to Brazil in the 19th century and seems to have settled there in distinct forms: in the South and in the Northeast. This one is from the Northeast, it is a song, and due to the usual mixed-up classifications, it is associated with the Forró dance. The lyrics are amusing; probably composed in the 1960s (it was released on a 1968 album), they already nostalgically portray the disappearance of the dance: "Mazurca, velha mazurca inda se dança no meu sertão" ("Mazurka, old mazurka, people still dance it in my backlands"). And at the end it leaves a message for us musicians: "Tocador que não for tocador perde o compasso e num toca mais não" ("A musician who isn't truly a musician loses the beat and never plays again"). Burn!

Notes : This might be the yummiest mazurka ever recorded! Cape Verdean mazurka originated in the 19th century when the Portuguese brought European dance fashion – Mazurka, Polka, Waltz, Schottische, and Galop – to the Lusophone world. In Cape Verde there are records of it being danced at weddings as early as 1864. It is a musical genre linked to the violin repertoire of four islands: Santo Antão, São Nicolau, Brava, and Fogo. Attention: it may be called "Rabolo" instead of mazurka.

Notes : Truly a discreet tune! Great for jams because, like other mazurkas by this composer, it can be played either in the traditional style (faster and sharper) or in the modern style (slower and nuanced). This version is close to the one in the posthumous score collection "Recueil de musiques".

The musical score is written in treble clef, 3/4 time, with a tempo of 110 beats per minute. It consists of six staves of music, each with a key signature of one flat (B-flat) and a common time signature of 3/4. The chords are indicated above the staff: Am, Em7, F, C, Dm7, and E7. The melody features several triplets, indicated by a '3' below the notes. The score is divided into measures by bar lines, with measure numbers 5, 9, 13, 17, and 21 marked at the beginning of their respective staves. Mazurka : La nonchalante

The boat "nonchalante"

Comp. : Emmanuel Pariselle (França)

Disc. : Emmanuel Pariselle, Duo Nello, Duo Absynthe

Notes : A song composed as a waltz but with mazurka swing; it's extremely popular in France. The lyrics describe the author's farewell to his boat. "La nonchalante" is the name of the beloved vessel. At the end he sings in that agonizing A7 that he would like to go to Syracuse in Sicily. We could help the man by going to jam in a baroque-flamboyant piazza. Andiamo?

♩ = 110

C'est pas que j'sois d'première jeunesse
 La vie a passé sous les ponts
 Mais le bateau est encore bon
 Et l'temps n'est pas à la paresse
 Si j'débarque il n'me restera
 Qu'a m'saouler au café du port
 Sans avoir, comme un cœur à bord
 Dans la cale le moteur qui bat.

La Nonchalante, la Nonchalante,
 on va pas s'quitter comme ça
 Moi sans ta coque, toi sans mes bras,
 la Nonchalante,
 La Nonchalante, la Nonchalante,
 on peut pas oublier tout ça
 Y disent c'qu'ils veulent, nous on s'en va,
 la Nonchalante

Depuis la fin des années trente
 On en a vu des chargements
 Des écluses et du mauvais temps
 Qu'tu sois montante ou avalante
 Un soleil qui dissoud la brume
 L'canal du midi sous la lune
 Les fins de semaine à Conflans
 Y'a eu aussi des bons moments

Y en a qui disent qu'on n'a plus l'âge
 Tous les deux au bout du rouleau
 Qu'il faut m'envoyer à l'hosto
 Et t'amener au déchirage
 Mais passée la dernière écluse
 On partira sur la grand'bleue
 On ira aussi loin qu'on peut
 J'aimerais tant voir Syracuse

Comp. : Éric Thézé (France)

Disc. : Éric Thézé

Notes : This tune is not a mega-hit of Portuguese folk nights, but it is included in the Jamictionary as yet another of those compositions written with sunny Lisbon in mind – perhaps in homage to good times spent here. The harmony is a much simplified version of what Monsieur Éric actually plays. The music is long and somewhat dark—not the Lisbon seen in mobile-carrier ads or described in our popular music!

Brazilian Mazurka : Mazurka Choro

Comp. : Trad. Brittany region, France

Disc. : Duo Nello, Fleuves, Gwerz

Notes : Some groups play this piece as a song, while others treat it as an instrumental tune. The song is about romantic troubles, though certainly not in the dramatic style of Fado or Opera. This melody is always played in a call-and-response format, which is why the sections are repeated.

♩ = 130

The musical score is written in 4/4 time with a key signature of one flat (Bb). It consists of two main sections, A and B, each repeated twice. Section A starts with a repeat sign and is followed by a double bar line. Section B also starts with a repeat sign and is followed by a double bar line. The score includes guitar chords (Dm, Am, C, Bb) and a final section starting at measure 9.

3-step Ronde : Tri Martolod

Three sailors

Comp. : Trad. Brittany region, France

Disc. : Alan Stivell, Yann Fanch Kemener

Notes : A 19th-century song. It tells of three young sailors who went to Newfoundland (Canada). The lyrics are in Breton Gaelic and recount that the three sailors met some cheerful native women who happened to be ready for marriage. Intriguingly, the song makes no reference to Canada's high divorce rates. This song is very well known in France, it became the symbol of the French 1970s celtic revival. The structure of this version follows the "ronde à 3 pas" dance as seen on YouTube, not the Trad-Pop version by Alan Stivell. Also, the scale is D Dorian (with B natural), not D Aeolian (with B-flat).

The final verse is blunt: "Forget my daughter's hand, she is not for sale." Sheet music found online is always in 2/4. Notes : A song much loved in Eastern Europe, judging by the countless views and number of videos on YouTube! The lyrics are rather curious, it would make an excellent anthem for dance enthusiasts: a man sings and tries to persuade the girl (and his partner) Jana to dance non-stop, even going so far as to suggest they sell their horse and house so they can spend their time dancing. At this rate, Jana is going to have her bank account manager phoning her early on a Monday morning, full of financial worries! The dance takes the form of a broken circle, that is, a line that loops back on itself, a bit like the Hanter Dro or the An Dro.
