

Intro to the Jamictionary

Dear reader,

This is a short intro to the "Jamictionary" : a compilation of music scores mixing some of the most frequently danced tunes in the European Balfolk festivals and some of the most frequently danced tunes in regional folk scenes. This database is designed to be used in multiple ways :

- As a leadsheet for the live performance in a jam session.
- As a collaborative database for dance music.
- As a music reading and training tool.
- As an enabler of transformation in the instrument hierarchy of jam sessions.
- As a discussion starter on how broken is the concept of traditional music databases.

There are currently 2 versions of the database : v.1 is named "Jamicionario" and the v.2 is named "Jamictionary". Only V.2 will remain after the transition period.

- V.1 : A Portugal-based Muscores and PDF-file database, lasting from 2022 to 26. If you're reading this introduction, V1 is the database next to it.
- V.2 : A International website in English language, starting on 2026.

What's inside :

V.1 :

- The goal of the "Jamicionário" is twofold :
 - To achieve a minimum common repertoire in the Balfolk jam sessions throughout Portugal.
 - To raise the local cultural and performance bar by introducing an organised map of the very extensive European folk and neo-folk dance music.
- It follows the blueprint of jazz's reference jam session book, "The Real Book." It then abandons the binding to exist as a shared folder on the internet that you can save on your computer. Each tune has two files: a PDF file and a MuseScore file. MuseScore is a software that allows you to edit the tunes, so you can create multiple versions of one score. There are no standards for the tunes : the melodies and chords I've provided are only suggestions. The software opens the door for the music jam be coordinated by any instrument as it makes real-time transposition of any music a possibility.

V.2 :

- The goal of the Jamictionary will be threefold :
 - To provide an central database into European trad. and neo.trad dance music focused on performance and jam sessioning.
 - To achieve a minimum common repertoire in the Balfolk jam sessions throughout Europe.
 - To raise the cultural and performance bar by introducing an organised map of the very extensive European folk and neo-folk dance music.
- It will follow the blueprint of Irish trad. music reference website, thesession.org. The website is now under development and will develop the architecture of "thesession" website by adapting to the complexities of music genres of European music and the challenges they present to adapt into the format of jam sessions.

How it is organised

The database owes its name (the amalgamation of Jam and Dictionary) to the organisation of the content. It is divided into 2 main categories :

- Dance families (mazurka, waltz, bourrée, etc.), organised in alphabetical order. Most tunes belong to this category. They are often further organised into subcategories (i.e., the two-time and the tree-time bourrée).
- Singles. This exceptional category incorporates the tunes that are specific to a single dance (Mardi Gras, Alunelul, Rumelaj, etc.). This separation between dance families and singles already exists in traditional Irish folk music, and they refer to "singles" as "set dances." The singles are not reorganised into subcategories.

Let's jam!

An Dro : d'Alan

Alan Stivell's

Comp. : Trad. Brittany region, France
Disc. : Alan Stivell
Notes : Very simple melody played by the Breton harpist Alan Stivell at the concert at the Olympia hall (Paris) in 1972. This was a special gig because it marked the beginning of the "Celtic" music trend in France. There isn't a documentary that doesn't mention it, by Toutatis! Attention: Traditional Breton songs unfortunately have no names; this title was given by someone who wanted to categorize the melody. This tradition causes a lot of confusion and makes it extremely difficult to search for Breton music in databases.

Comp. : Trad. Brittany region, France

Disc. : An Triskell

Notes : An Dro in 4 parts, which is unusual. I don't know if it's a combination of two An Dros by An Triskell, or if it was originally composed this way. An Triskell was a traditional Breton music band founded in 1970, which gained considerable popularity in the 1970s and 1980s. Attention: Traditional Breton songs unfortunately have no names; this title was given by someone who wanted to categorize the melody. Arin-Arin : Untitled #1

Comp. : Trad. Basque Country region, Spain**Disc.** : Duo Absynthe, Orontes Project**Notes:** Arin-arin in Basque means "light-light," suggesting a fast and technically difficult step to dance. Arin-arin is a dance that always follows the Basque Fandango, an isolated case among fandangos. It's also curious because the Fandango is in 3/4 and the Arin-arin in 2/4, meaning the two are not very musically related. This version follows that of Duo Absynthe, and may differ from traditional Basque arrangements.

Comp. : Luiz Gonzaga (Brazil) em 1947

Disc. : Luiz Gonzaga

Notes : Baião is the tune type, Forró is the dance associated with it. This is perhaps the most played tune for Forró dance ever. This is also a song with suprisingly sad lyrics, it tells the story of someone who has to leave the Sertão area of Brasil because of a draught. "Asa Branca" is the short name of a South American pigeon, the *Patagioenas picazuro*, and in the song he also flees the draught.

Bourrée 2T : Last chance

Comp. : Michel Pichon (France)

Disc. : Blowzabella

Notes : According to Wikipedia, the bourrée is a French-origin dance common in the Auvergne and Biscay regions in 17th-century Spain. Originally titled "Il n'est plus temps", it was popularized by the English band Blowzabella who appear to have named it differently under an English title. What were they thinking? It has a slightly different swing from traditional French bourrées, which sometimes causes confusion in the dance floor. Play it wrongly and it might be your last chance to ever try a bourrée in a jam session!

Hanter Dro : Calimero

Comp. : Pascale Rubens (Belgium)
Disc : Naragonia, Celina da Piedade
Notes : This is a recently copmposed tune, it's quite different from traditional Breton Hanter Dros. Calimero was an Italian cartoon from the 1960s, particularly famous in Portugal due to a song where he gets cozy with Maya the Bee. Celina da Piedade plays pairs ths melody with an Alentejo folk song, "Pêra Verde."

Brazilian Mazurka : Luíz Gonzaga's

Comp. : Luiz Gonzaga (Brazil)

Disc. : Luiz Gonzaga

Notes : The Polish mazurka migrated to Brazil in the 19th century and seems to have settled there in distinct forms: in the South and in the Northeast. This one is from the Northeast, it is a song, and due to the usual mixed-up classifications, it is associated with the Forró dance. The lyrics are amusing; probably composed in the 1960s (it was released on a 1968 album), they already nostalgically portray the disappearance of the dance: "Mazurca, velha mazurca inda se dança no meu sertão" ("Mazurka, old mazurka, people still dance it in my backlands"). And at the end it leaves a message for us musicians: "Tocador que não for tocador perde o compasso e num toca mais não" ("A musician who isn't truly a musician loses the beat and never plays again"). Burn!

Mazurka : La nonchalante

The boat "nonchalante"

Comp. : Emmanuel Pariselle (França)

Disc. : Emmanuel Pariselle, Duo Nello, Duo Absynthe

Notes : A song composed as a waltz but with mazurka swing; it's extremely popular in France. The lyrics describe the author's farewell to his boat. "La nonchalante" is the name of the beloved vessel. At the end he sings in that agonizing A7 that he would like to go to Syracuse in Sicily. We could help the man by going to jam in a baroque-flamboyant piazza. Andiamo?

C'est pas que j'sois d première jeunesse
 La vie a passé sous les ponts
 Mais le bateau est encore bon
 Et l temps n'est pas à la paresse
 Si j'débarque il n me restera
 Qu'a m'saouler au café du port
 Sans avoir, comme un cœur à bord
 Dans la cale le moteur qui bat.

La Nonchalante, la Nonchalante,
 on va pas s'quitter comme ça
 Moi sans ta coque, toi sans mes bras,
 la Nonchalante,
 La Nonchalante, la Nonchalante,
 on peut pas oublier tout ça
 Y disent c'qu'ils veulent, nous on s'en va,
 la Nonchalante

Depuis la fin des années trente
 On en a vu des chargements
 Des écluses et du mauvais temps
 Qu'tu sois montante ou avalante
 Un soleil qui dissoud la brume
 L'canal du midi sous la lune
 Les fins de semaine à Conflans
 Y'a eu aussi des bons moments

Y en a qui disent qu'on n'a plus l'âge
 Tous les deux au bout du rouleau
 Qu'il faut m'envoyer à l'hosto
 Et t'amener au déchirage
 Mais passée la dernière écluse
 On partira sur la grand'bleue
 On ira aussi loin qu'on peut
 J'aimerais tant voir Syracuse

3-step Ronde : Tri Martolod

Comp. : Trad. Brittany region, France

Disc. : Alan Stivell, Yann Fanch Kemener

Notes : A 19th-century song. It tells of three young sailors who went to Newfoundland (Canada). The lyrics are in Breton Gaelic and recount that the three sailors met some cheerful native women who happened to be ready for marriage. Intriguingly, the song makes no reference to Canada's high divorce rates. This song is very well known in France, it became the symbol of the French 1970s celtic revival. The structure of this version follows the "ronde à 3 pas" dance as seen on YouTube, not the Trad-Pop version by Alan Stivell. Also, the scale is D Dorian (with B natural), not D Aeolian (with B-flat).

The final verse is blunt: "Forget my daughter's hand, she is not for sale." Sheet music found online is always in 2/4. The lyrics are rather curious, it would make an excellent anthem for dance enthusiasts: a man sings and tries to persuade the girl (and his partner) Jana to dance non-stop, even going so far as to suggest they sell their horse and house so they can spend their time dancing. At this rate, Jana is going to have her bank account manager phoning her early on a Monday morning, full of financial worries! The Pingacho dance

Comp. : Trad. Miranda do Douro region (Portugal)

Single : Rumelaj

To blush

Comp. : Trad. Macedonia

Disc. : Kalyi Jag, Faraualla

Notes : It's a song. It's one of those tricky tunes to jam on, given that the well-known Faraualla version is very good. The difference between the Faraualla's version and the standard jam interpretation is wide enough to make one blush!

Single : Senhor Galandum

Mister Galandum

Comp. : Trad. Miranda do Douro region (Portugal)

Disc. : Galandum Galundaina

Notes : It's a song. Note: the structure of the music is unusual. The Galandum Galundaina band repeat section A3 four times which does not coincide with the standard version of the dance. Note: bars 20-33 (or parts C and A3) are repeated until the dancers reach their starting position; if there are a lot of people, this can take a while!

Comp. : Trad. Estonia/Latvia/Russia
Disc. : Trio Klap's
Notes : A tune often known in Portugal as the "Estonian Chappeloise" or as the "Double Chappeloise". The melody is great fun for the jam, it's easy to play with it.

Tango : Ausência

Absence

Comp. : Goran Bregović (Bosnia-Herzegovina)

Disc. : Cesária Évora

Notes : A tango that became famous for appearing on the soundtrack of Emir Kusturica's 1995 film "Underground", although it also features in a 1988 film by the same director, "Time of the Gypsies" ("Kuduz"). The voice of Cesária Évora was a very surprising choice. The bpm are those of the film version, although the tempo is flexible: the musicians speed up and slow down at the start of phrases.

Tourdion : Quand je bois du vin claret

When I drink claret wine

Comp. : Anonymous French composer. This tune was published in a compilation of music scores in the 1530s

Disc. : Jordi Savall, Short tailed snails

Notas : This song has a curious history. It was published in a collection by Pierre Attaingnant (the world's first music publisher, who lived between 1494 and 1551) in the 1530s. However, the title and lyrics accompanying the song were written by César Geoffray in 1949, a mere 419 years later! As for the 'claret' wine mentioned in the title, it's a style of wine similar to the rosé characteristic of the Bordeaux region. Santé!

Notas : The tune is traditional, but the version from which Hedningarna took the melody comes from the musician/violinist Olof Tillman from the Dalarna (northwest of Stockholm). The Hedningarna version is a good reference for practising the rhythm of the polska, as they emphasize the strong beats more clearly than traditional folk bands.
