

## Intro to the Jamictionary

Dear reader,

This is a short intro to the "Jamictionary" : a compilation of music scores mixing some of the most frequently danced tunes in the European Balfolk festivals and some of the most frequently danced tunes in regional folk scenes. This database is designed to be used in multiple ways :

- As a leadsheet for the live performance in a jam session.
- As a collaborative database for dance music.
- As a music reading and training tool.
- As an enabler of transformation in the instrument hierarchy of jam sessions.
- As a discussion starter on how broken is the concept of traditional music databases.

There are currently 2 versions of the database : v.1 is named "Jamicionario" and the v.2 is named "Jamictionary". Only V.2 will remain after the transition period.

- V.1 : A Portugal-based Muscores and PDF-file database, lasting from 2022 to 26. If you're reading this introduction, V1 is the database next to it.
- V.2 : A International website in English language, starting on 2026.

### What's inside :

#### V.1 :

- The goal of the "Jamicionário" is twofold :
  - To achieve a minimum common repertoire in the Balfolk jam sessions throughout Portugal.
  - To raise the local cultural and performance bar by introducing an organised map of the very extensive European folk and neo-folk dance music.
- It follows the blueprint of jazz's reference jam session book, "The Real Book." It then abandons the binding to exist as a shared folder on the internet that you can save on your computer. Each tune has two files: a PDF file and a MuseScore file. MuseScore is a software that allows you to edit the tunes, so you can create multiple versions of one score. There are no standards for the tunes : the melodies and chords I've provided are only suggestions. The software opens the door for the music jam be coordinated by any instrument as it makes real-time transposition of any music a possibility.

#### V.2 :

- The goal of the Jamictionary will be threefold :
  - To provide an central database into European trad. and neo.trad dance music focused on performance and jam sessioning.
  - To achieve a minimum common repertoire in the Balfolk jam sessions throughout Europe.
  - To raise the cultural and performance bar by introducing an organised map of the very extensive European folk and neo-folk dance music.
- It will follow the blueprint of Irish trad. music reference website, thesession.org. The website is now under development and will develop the architecture of "thesession" website by adapting to the complexities of music genres of European music and the challenges they present to adapt into the format of jam sessions.

### How it is organised

The database owes its name (the amalgamation of Jam and Dictionary) to the organisation of the content. It is divided into 2 main categories :

- Dance families (mazurka, waltz, bourrée, etc.), organised in alphabetical order. Most tunes belong to this category. They are often further organised into subcategories (i.e., the two-time and the tree-time bourrée).
- Singles. This exceptional category incorporates the tunes that are specific to a single dance (Mardi Gras, Alunelul, Rumelaj, etc.). This separation between dance families and singles already exists in traditional Irish folk music, and they refer to "singles" as "set dances." The singles are not reorganised into subcategories.

Let's jam!

# An Dro : d'Alan

## Alan Stivell's

**Comp.** : Trad. Brittany region, France  
**Disc.** : Alan Stivell  
**Notes** : Very simple melody played by the Breton harpist Alan Stivell at the concert at the Olympia hall (Paris) in 1972. This was a special gig because it marked the beginning of the "Celtic" music trend in France. There isn't a documentary that doesn't mention it, by Toutatis! Attention: Traditional Breton songs unfortunately have no names; this title was given by someone who wanted to categorize the melody. This tradition causes a lot of confusion and makes it extremely difficult to search for Breton music in databases.

**Notes** : An Dro in 4 parts, which is unusual. I don't know if it's a combination of two An Dros by An Triskell, or if it was originally composed this way. An Triskell was a traditional Breton music band founded in 1970, which gained considerable popularity in the 1970s and 1980s. ## Arin-Arin : Untitled #1

**Comp.** : Trad. Basque Country region, Spain

**Disc.** : Duo Absynthe, Orontes Project

**Notes:** Arin-arin in Basque means "light-light," suggesting a fast and technically difficult step to dance. Arin-arin is a dance that always follows the Basque Fandango, an isolated case among fandangos. It's also curious because the Fandango is in 3/4 and the Arin-arin in 2/4, meaning the two are not very musically related. This version follows that of Duo Absynthe, and may differ from traditional Basque arrangements.

♩ = 180

The musical score is written in treble clef with a 2/4 time signature and a tempo of 180 BPM. It consists of six staves of music, each with a key signature of one flat (B-flat) and a common time signature of 2/4. The score is divided into sections A, B, and C, each with a key signature of one flat (B-flat) and a common time signature of 2/4. The notation includes various chords (Am, Dm, E7, F, G, Em7) and musical notations (quarter notes, eighth notes, sixteenth notes, triplets, and repeat signs). # Baião : Asa branca

## Picazuro pigeon

**Comp.** : Luiz Gonzaga (Brazil) em 1947

**Disc.** : Luiz Gonzaga

**Notes** : Baião is the tune type, Forró is the dance associated with it. This is perhaps the most played tune for Forró dance ever. This is also a song with suprisingly sad lyrics, it tells the story of someone who has to leave the Sertão area of Brasil because of a draught. "Asa Branca" is the short name of a South American pigeon, the *Patagioenas picazuro*, and in the song he also flees the draught.

**Notes:** According to Wikipedia, the bourrée is a French-origin dance common in the Auvergne and Biscay regions in 17th-century Spain. This tune is traditional (possibly a mix of two traditional tunes), but the choreography is not trad., it's a mixer. Ciac Boum may be responsible for the popularity of this mixer, which mixes 3-time bourrée with a ronde. As for "Limousine": not the Amercian stretched car, but the Limousin region in France.

The musical score is written in 4/4 time with a key signature of one sharp (F#). The tempo is marked as ♩ = 85. The score consists of 16 measures, divided into two main sections: A and B.

*Green pear*

**Notes :** This is a song, and a peculiar one as it has only one part. It's an adaptation of a non-dance piece by the Alentejo choir "As Papoilas do Corvo." Celina da Piedade recorded it together with Naragonia's "Calimero" and turned it into the most recognizable Hanter Dro in Portugal.

## Hanter Dro : Y a 10 marins sur mer *Há 10 marinheiros no mar*

**Comp.** : Trad. Brittany region, France

**Disc.** : Laurent Geoffroy, Alain Pennec

**Notes** : A Breton sailors' song often adapted to the Hanter Dro. The lyrics are as dark as El Greco's late paintings : in each verse a sailor disappears until none are left, everyone in that boat goes to the bottom of the Ocean ! On the brighter side of the story, the fish of Brittany just got a new artificial reef, finding protection for them and their families.

# Brazilian Mazurka : Luíz Gonzaga's

**Comp.** : Luiz Gonzaga (Brazil)

**Disc.** : Luiz Gonzaga

**Notes** : The Polish mazurka migrated to Brazil in the 19th century and seems to have settled there in distinct forms: in the South and in the Northeast. This one is from the Northeast, it is a song, and due to the usual mixed-up classifications, it is associated with the Forró dance. The lyrics are amusing; probably composed in the 1960s (it was released on a 1968 album), they already nostalgically portray the disappearance of the dance: "Mazurca, velha mazurca inda se dança no meu sertão" ("Mazurka, old mazurka, people still dance it in my backlands"). And at the end it leaves a message for us musicians: "Tocador que não for tocador perde o compasso e num toca mais não" ("A musician who isn't truly a musician loses the beat and never plays again"). Burn!

**Notes** : The composer was the accordionist of the traditional (and neo-trad) Piedmont group "La Ciapa Rusa", active from the 1970s to 2000. This mazurka is closer to the traditional format : more "point-point", less "zzzzzzing-zzzzzing."

## Mazurka : La nonchalante

### *The boat "nonchalante"*

**Comp.** : Emmanuel Pariselle (França)

**Disc.** : Emmanuel Pariselle, Duo Nello, Duo Absynthe

**Notes** : A song composed as a waltz but with mazurka swing; it's extremely popular in France. The lyrics describe the author's farewell to his boat. "La nonchalante" is the name of the beloved vessel. At the end he sings in that agonizing A7 that he would like to go to Syracuse in Sicily. We could help the man by going to jam in a baroque-flamboyant piazza. Andiamo?

C'est pas que j'sois d première jeunesse  
 La vie a passé sous les ponts  
 Mais le bateau est encore bon  
 Et l temps n'est pas à la paresse  
 Si j'débarque il n me restera  
 Qu'a m'saouler au café du port  
 Sans avoir, comme un cœur à bord  
 Dans la cale le moteur qui bat.

La Nonchalante, la Nonchalante,  
 on va pas s'quitter comme ça  
 Moi sans ta coque, toi sans mes bras,  
 la Nonchalante,  
 La Nonchalante, la Nonchalante,  
 on peut pas oublier tout ça  
 Y disent c'qu'ils veulent, nous on s'en va,  
 la Nonchalante

Depuis la fin des années trente  
 On en a vu des chargements  
 Des écluses et du mauvais temps  
 Qu'tu sois montante ou avalante  
 Un soleil qui dissoud la brume  
 L'canal du midi sous la lune  
 Les fins de semaine à Conflans  
 Y'a eu aussi des bons moments

Y en a qui disent qu'on n'a plus l'âge  
 Tous les deux au bout du rouleau  
 Qu'il faut m'envoyer à l'hosto  
 Et t'amener au déchirage  
 Mais passée la dernière écluse  
 On partira sur la grand'bleue  
 On ira aussi loin qu'on peut  
 J'aimerais tant voir Syracuse

The harmony is a much simplified version of what Monsieur Éric actually plays. The music is long and somewhat dark—not the Lisbon seen in mobile-carrier ads or described in our popular music!

## Brazilian Mazurka : Mazurka Choro

**Comp.** : Heitor Villa-Lobos (Brazil)

**Notes** : Simplified version of the original solo-guitar arrangement. Judging by the title, the composer envisioned a mazurka speaking in the language of Choro, the Brazilian genre famous for its technically demanding jam sessions (or "Roda" as they call it). Within the same "Suite Popular Brasileira", he also composed a "Scottish Choro", "Valsa Choro", and "Gavota Choro".

**Comp.** : Laurent Geoffroy (France)

**Notes** : Fun music but difficult in jam context because of the long silences in the first part. These relate to the dance: a call-and-response between musicians and dance steps. "Musike" means "kiss" in Estonian, the name came from a dance there.

# Mazurka : La paire de Saulxures

## *The couple of Saulxures*

**Comp.** : Sylvain Butté (France)

**Disc.** : Sylvain Butté

**Notes** : The composer is a young and prolific French musician : over 200 compositions, according to the band's website! He plays this on diatonic accordion in G minor, a very unusual scale on that button-packed instrument. He plays a bit faster than the usual bpm. Saulxures is a small town in eastern France, between Strasbourg and Colmar, near the German border.

Sheet music for Mazurka : La paire de Saulxures, arranged for diatonic accordion in G minor (3/4 time, 120 bpm).

The music is divided into two main sections, A and B, with various chord changes indicated above the staff.

**Section A:** Measures 1-12. Chords: Dm, Bb, C, Bb.

**Section B:** Measures 13-28. Chords: Dm, C, Bb, C.

The piece concludes with a final measure (measure 29) consisting of a whole rest.

# Mazurka : Motorway

**Comp.** : John Swayne (England)  
**Disc.** : Shillelagh  
**Notes** : The composer is the bagpiper of Blowzabella. A rare case of an English mazurka popularized by a French group and frequently played at Portuguese European-dance nights! The melody is slightly altered here to be more intuitive for jams, thanks to the massive chain-reaction mistakes at the 2025 Carnival Jam in Porto. The title, however, seems internationally uninspired!

# Mazurka : Mouchti

**Comp.** : Rolland Martinez (France)

**Disc.** : Trio Loubelya

**Notes** : A very popular tune at balfolk DJ nights. The piece was played exceptionally well by Aurélien Claranbaux during the 2022 New Year's celebration in Coimbra (Portugal), filling it with improvised sections. The harmony has been simplified compared to the recording by the Loubelya Trio to make it easier to join the jam session, but the modulations in Part B have been retained. The name of the tune remains a mystery."

# Mazurka : Sonny Brogan's

**Comp.** : Trad. Ireland

**Disc.** : Many, many paddies on Youtube

**Notes** : In Ireland, the mazurka dance survive only in county Donegal. Curiously, the tune is named after a Dublin accordionist who played with Ceoltóirí Chualann in the 1960s, so the connection to Donegal is unknown. Perhaps he helped spread it around the capital at a time when they were out of fashion.

## Repasseado : de Rio d'Onor

### *From the village of Rio d'Onor*

**Comp.** : Trad. Trás-os-Montes region, Portugal

**Disc.** : Roncos do Diabo

**Notes** : Many people in jam sessions across Europe ask for a trad. repasseado, this is it, the tradiest of them all ! This "repasseado" has an unusual asymmetrical measure count – 5 bars in A and 4 in B, so the dancers must be warned. To complicate things further, the Roncos version has 2 extra bars in part B. For jams, it's simplified to the usual 4-bar B section. Rio d'Onor is a very well known tiny village in the once remote Portugal's Northeast corner. Check it out online, you'll be surprised of what happened in there.

**Notes** : A very well-known tune inside and outside Portugal, common in dance jams across Europe. So much so that some people play it in front of Vasco and inform him that it is "an old and traditional tune". The melody is similar to the (actually traditional) "repasseado" from Rio d'Onor. The tune's name is, according to the author, simply "Repasseado," but here in the Jamictionary database "Repasseado repasseado" would not make sense!

**Notas** : The "Rigodon" is a couple dance typical of Provence, a region near Italy in southern France that Van Gogh enjoyed painting. Much loved by dancers, though rarely danced outside of France. On the other hand, all European countries have donkeys in abundance. Pay attention to the musical structure!

## 3-step Ronde : Tri Martolod

### *Three sailors*

**Comp.** : Trad. Brittany region, France

**Disc.** : Alan Stivell, Yann Fanch Kemener

**Notes** : A 19th-century song. It tells of three young sailors who went to Newfoundland (Canada). The lyrics are in Breton Gaelic and recount that the three sailors met some cheerful native women who happened to be ready for marriage. Intriguingly, the song makes no reference to Canada's high divorce rates. This song is very well known in France, it became the symbol of the French 1970s celtic revival. The structure of this version follows the "ronde à 3 pas" dance as seen on YouTube, not the Trad-Pop version by Alan Stivell. Also, the scale is D Dorian (with B natural), not D Aeolian (with B-flat).

### *The young man from Nantes*

**Comp.** : Trad. France

**Disc.** : Bargainatt

**Notes** : There are several places named Argenton in France, making it hard to know which one was immortalized here. The song has amusing lyrics: a young ambitious man asks for a lovely girl's hand in marriage, but her father refuses with little poetic instincts. The final verse is blunt: "Forget my daughter's hand, she is not for sale." Sheet music found online is always in 2/4. Either they all come from one source and everyone copies each other, or Bargainatt's version changed the swing. Rondes are usually ternary, and for dancers this 6/8 makes good sense.

# Single : Ajde Jano (Ajde Jano)

## *Let's go, Jana*

**Comp.** : Trad. Serbia

**Disc.** : Dikanda, Nigel Kennedy, Ladaniva, Kroke

**Notes** : A song much loved in Eastern Europe, judging by the countless views and number of videos on YouTube! The lyrics are rather curious, it would make an excellent anthem for dance enthusiasts: a man sings and tries to persuade the girl (and his partner) Jana to dance non-stop, even going so far as to suggest they sell their horse and house so they can spend their time dancing. At this rate, Jana is going to have her bank account manager phoning her early on a Monday morning, full of financial worries! The dance takes the form of a broken circle, that is, a line that loops back on itself, a bit like the Hanter Dro or the An Dro.

**Notas** : A simple tune that gradually picks up speed. Note the scale, which is in one of the Eastern modes. The dance is circular and resembles a simple version of Tzadik Katamar with clapping included. It is a song reminiscent of Fado lyrics: it speaks of rainwater, which in turn symbolises a peculiarly ardent love. For some reason, the internet yields quite a few results in the US and the Netherlands, and, cruel fate, there is a second melody with the same name. What a turn of events!

## Single : Horah Medura

### *Circle dance of the fire*

**Comp.** : Yoel Velba (Israel) in 1934

**Disc.** : Effi Natzer and his band

**Notes** : A circle dance, choreographed in 1963 by Yo'av Ashriel, always performed in a continuous line where no one changes places. 'Horah' comes from the Greek and means 'dance'. More recently, it has become a circle dance that extends from the Balkans to Israel. Horah is a type of dance, but in this case it is a choreography specific to this song; in other words, it is a single. The BPM is approximate, the music gradually speeds up until the music instrument has smoke coming out of it.

This is the tune that many dancers will never fail to request at the end of a gathering, dance, event or, perhaps, on a trip to the Moon. However, the title and lyrics accompanying the song were written by César Geoffray in 1949, a mere 419 years later! **Comp.** : Jay Ungar (USA)

**Disc.** : Jay Ungar

**Notes** : A simple waltz well known in the USA as it was used as the soundtrack for a documentary on the American Civil War. Interestingly, the title refers to a farewell at the annual Ashokan fiddle and dance gathering in the USA. By the way: the American Civil War took place in 1861-65, but the music was composed 130 years later, in the 1990s.
