

## Intro to the Jamictionary

Dear reader,

This is a short intro to the "Jamictionary" : a compilation of music scores mixing some of the most frequently danced tunes in the European Balfolk festivals and some of the most frequently danced tunes in regional folk scenes. This database is designed to be used in multiple ways :

- As a leadsheet for the live performance in a jam session.
- As a collaborative database for dance music.
- As a music reading and training tool.
- As an enabler of transformation in the instrument hierarchy of jam sessions.
- As a discussion starter on how broken is the concept of traditional music databases.

There are currently 2 versions of the database : v.1 is named "Jamicionario" and the v.2 is named "Jamictionary". Only V.2 will remain after the transition period.

- V.1 : A Portugal-based Muscores and PDF-file database, lasting from 2022 to 26. If you're reading this introduction, V1 is the database next to it.
- V.2 : A International website in English language, starting on 2026.

### What's inside :

#### V.1 :

- The goal of the "Jamicionário" is twofold :
  - To achieve a minimum common repertoire in the Balfolk jam sessions throughout Portugal.
  - To raise the local cultural and performance bar by introducing an organised map of the very extensive European folk and neo-folk dance music.
- It follows the blueprint of jazz's reference jam session book, "The Real Book." It then abandons the binding to exist as a shared folder on the internet that you can save on your computer. Each tune has two files: a PDF file and a MuseScore file. MuseScore is a software that allows you to edit the tunes, so you can create multiple versions of one score. There are no standards for the tunes : the melodies and chords I've provided are only suggestions. The software opens the door for the music jam be coordinated by any instrument as it makes real-time transposition of any music a possibility.

#### V.2 :

- The goal of the Jamictionary will be threefold :
  - To provide an central database into European trad. and neo.trad dance music focused on performance and jam sessioning.
  - To achieve a minimum common repertoire in the Balfolk jam sessions throughout Europe.
  - To raise the cultural and performance bar by introducing an organised map of the very extensive European folk and neo-folk dance music.
- It will follow the blueprint of Irish trad. music reference website, thesession.org. The website is now under development and will develop the architecture of "thesession" website by adapting to the complexities of music genres of European music and the challenges they present to adapt into the format of jam sessions.

### How it is organised

The database owes its name (the amalgamation of Jam and Dictionary) to the organisation of the content. It is divided into 2 main categories :

- Dance families (mazurka, waltz, bourrée, etc.), organised in alphabetical order. Most tunes belong to this category. They are often further organised into subcategories (i.e., the two-time and the tree-time bourrée).
- Singles. This exceptional category incorporates the tunes that are specific to a single dance (Mardi Gras, Alunelul, Rumelaj, etc.). This separation between dance families and singles already exists in traditional Irish folk music, and they refer to "singles" as "set dances." The singles are not reorganised into subcategories.

Let's jam!

## An Dro : d'Alan *Alan Stivell's*

**Comp.** : Trad. Brittany region, France

**Disc.** : Alan Stivell

**Notes** : Very simple melody played by the Breton harpist Alan Stivell at the concert at the Olympia hall (Paris) in 1972. This was a special gig because it marked the beginning of the "Celtic" music trend in France. There isn't a documentary that doesn't mention it, by Toutatis! Attention: Traditional Breton songs unfortunately have no names; this title was given by someone who wanted to categorize the melody. This tradition causes a lot of confusion and makes it extremely difficult to search for Breton music in databases.

♩ = 170

The musical score is written in 4/4 time with a key signature of one flat (B-flat). It consists of three staves of music. The first staff begins with a boxed 'A' and contains the melody for measures 1-4, with chords Am, G, Am, and a first ending (1.) with chords G and Am. The second staff begins with a boxed 'B' and contains the melody for measures 5-8, with chords G, F, Am, Am, F, G, Am, and G. The third staff contains the melody for measures 9-12, with a first ending (1.) with chords F, G, and Am, followed by a second ending (2.) with chords F, G, and Am, and then two measures of whole rests.

**Comp.** : Trad. Brittany region, France

**Disc.** : Namnètes

**Notes** : Traditional song popularized in the 1970s by the group Namnètes. The song tells the story of three ships arriving at the port of Saint-Nazaire and then, all of a sudden, there's trouble involving a young woman who meant no harm.

# An Dro : An Triskell's

**Comp.** : Trad. Brittany region, France

**Disc.** : An Triskell

**Notes** : An Dro in 4 parts, which is unusual. I don't know if it's a combination of two An Dros by An Triskell, or if it was originally composed this way. An Triskell was a traditional Breton music band founded in 1970, which gained considerable popularity in the 1970s and 1980s. Attention: Traditional Breton songs unfortunately have no names; this title was given by someone who wanted to categorize the melody. ## Arin-Arin : Untitled #1

**Comp.** : Trad. Basque Country region, Spain

**Disc.** : Duo Absynthe, Orontes Project

**Notes:** Arin-arin in Basque means "light-light," suggesting a fast and technically difficult step to dance. Arin-arin is a dance that always follows the Basque Fandango, an isolated case among fandangos. It's also curious because the Fandango is in 3/4 and the Arin-arin in 2/4, meaning the two are not very musically related. This version follows that of Duo Absynthe, and may differ from traditional Basque arrangements.

♩ = 180

The musical score is written for a single melodic line in 2/4 time, with a tempo of 180 beats per minute. It consists of six staves of music, each containing a system of measures. The score is divided into sections A, B, and C, with first and second endings indicated by bracketed numbers.

# Baião : Asa branca

**Comp.** : Luiz Gonzaga (Brazil) em 1947

**Disc.** : Luiz Gonzaga

**Notes** : Baião is the tune type, Forró is the dance associated with it. This is perhaps the most played tune for Forró dance ever. This is also a song with suprisingly sad lyrics, it tells the story of someone who has to leave the Sertão area of Brasil because of a draught. "Asa Branca" is the short name of a South American pigeon, the *Patagioenas picazuro*, and in the song he also flees the draught.

**Notes :** This whaling song has a peculiar history: it became very famous in 2021 thanks to Nathan Evans, a Scottish singer, but it comes from a 1973 collection of traditional New Zealand songs. That said, the original composer is believed to have been a Scotsman who emigrated to New Zealand. There are many versions of the song; this one is close to the dance version by the Portland Megaband.

**Comp.** : Manos Hadjidakis (Greece) in the 1960s

**Comp.** : Trad. Portugal

**Notes** : Perhaps the best-known song in Portugal. As for the word "malhão": the "malho" is a tool (with two sticks) used to beat corn ears and separate the kernels. "Malhão" would be an augmentative form of "malho", which for some reason remained historically associated with the dance.

# Brazilian Mazurka : Luíz Gonzaga's

**Comp.** : Luiz Gonzaga (Brazil)

**Disc.** : Luiz Gonzaga

**Notes** : The Polish mazurka migrated to Brazil in the 19th century and seems to have settled there in distinct forms: in the South and in the Northeast. This one is from the Northeast, it is a song, and due to the usual mixed-up classifications, it is associated with the Forró dance. The lyrics are amusing; probably composed in the 1960s (it was released on a 1968 album), they already nostalgically portray the disappearance of the dance: "Mazurca, velha mazurca inda se dança no meu sertão" ("Mazurka, old mazurka, people still dance it in my backlands"). And at the end it leaves a message for us musicians: "Tocador que não for tocador perde o compasso e num toca mais não" ("A musician who isn't truly a musician loses the beat and never plays again"). Burn!

 La Nonchalante, la Nonchalante,

 On en a vu des chargements  
 Des écluses et du mauvais temps  
 Qu'tu sois montante ou avalante  
 Un soleil qui dissoud la brume  
 L'canal du midi sous la lune  
 Les fins de semaine à Conflans  
 Y'a eu aussi des bons moments

Y en a qui disent qu'on n'a plus l'âge  
 Tous les deux au bout du rouleau  
 Qu'il faut m'envoyer à l'hosto  
 Et t'amener au déchirage  
 Mais passée la dernière écluse

 On ira aussi loin qu'on peut

# Mazurka : Mouchti

**Comp.** : Rolland Martinez (France)

**Disc.** : Trio Loubelya

**Notes** : A very popular tune at balfolk DJ nights. The piece was played exceptionally well by Aurélien Claranbaux during the 2022 New Year's celebration in Coimbra (Portugal), filling it with improvised sections. The harmony has been simplified compared to the recording by the Loubelya Trio to make it easier to join the jam session, but the modulations in Part B have been retained. The name of the tune remains a mystery."

## Mazurka : Musike mazurka

### *Small kiss Mazurka*

**Comp.** : Laurent Geoffroy (France)

**Disc.** : ZEF, Laurent Geoffroy

**Notes** : Fun music but difficult in jam context because of the long silences in the first part. These relate to the dance: a call-and-response between musicians and dance steps. "Musike" means "kiss" in Estonian, the name came from a dance there.

The musical score is written in 9/8 time and consists of five staves of music. The key signature has one sharp (F#), indicating D major or B minor. Chord symbols are placed above the staff to indicate the harmonic structure. The score is divided into sections A and B, with measures 1 through 25 marked.

## Rond de Landéda : P'edon war bont an Naoned

### *When I was on the bridge of Nantes*

**Comp.** : Trad. Brittany region, France

**Disc.** : Shillelagh, Bernard Loffet, Denez Prigent

**Notes** : Landéda is small departmant near the city of Brest. The Ronde de Landéda is tricky to play properly in a jam session: attention to the little jump in dance that you have to play along in the right tempo.

♩ = 140

The musical score is written in 3/4 time with a tempo of 140 beats per minute. It consists of two systems of staves, each with a treble clef and a key signature of one flat (B-flat).

**System 1:**

- Staff 1: Starts with a whole rest, followed by a quarter rest, then a quarter note G4. A repeat sign follows. The first ending (A) has a chord of Am over the first two measures. The second ending has a chord of F over the last two measures.
- Staff 2: Continues the melody. A first ending (1.) with a Dm chord is followed by a second ending (2.) with a Dm chord. This is followed by a repeat sign. The first ending (B) has a chord of Am over the first two measures, and the second ending has chords of G and F over the last two measures.

**System 2:**

- Staff 3: Continues the melody. A first ending (1.) with a D chord is followed by a second ending (2.) with a G chord. This is followed by a repeat sign. The first ending (1.) has a chord of F over the first two measures, and the second ending has a chord of G over the last two measures. The piece ends with a whole rest.

## 3-step Ronde : Tri Martolod

### *Three sailors*

**Comp.** : Trad. Brittany region, France

**Disc.** : Alan Stivell, Yann Fanch Kemener

**Notes** : A 19th-century song. It tells of three young sailors who went to Newfoundland (Canada). The lyrics are in Breton Gaelic and recount that the three sailors met some cheerful native women who happened to be ready for marriage. Intriguingly, the song makes no reference to Canada's high divorce rates. This song is very well known in France, it became the symbol of the French 1970s celtic revival. The structure of this version follows the "ronde à 3 pas" dance as seen on YouTube, not the Trad-Pop version by Alan Stivell. Also, the scale is D Dorian (with B natural), not D Aeolian (with B-flat).

# Ronde d'Argenton : Le jeune homme de Nantes

## *The young man from Nantes*

**Comp.** : Trad. France

**Disc.** : Bargainatt

**Notes** : There are several places named Argenton in France, making it hard to know which one was immortalized here. The song has amusing lyrics: a young ambitious man asks for a lovely girl's hand in marriage, but her father refuses with little poetic instincts. The final verse is blunt: "Forget my daughter's hand, she is not for sale." Sheet music found online is always in 2/4. Either they all come from one source and everyone copies each other, or Bargainatt's version changed the swing. Rondes are usually ternary, and for dancers this 6/8 makes good sense.

## *The Armenian turn*

**Comp.** : Trad. Armenia

**Disc.** : Theo van Tol

**Notas** : A simple tune that gradually picks up speed. Note the scale, which is in one of the Eastern modes. The dance is circular and resembles a simple version of Tzadik Katamar with clapping included. It is a song reminiscent of Fado lyrics: it speaks of rainwater, which in turn symbolises a peculiarly ardent love. For some reason, the internet yields quite a few results in the US and the Netherlands, and, cruel fate, there is a second melody with the same name. What a turn of events!

**Notes** : A simple dance, with the distinctive feature of the dancers organising themselves into trios. The name is a mystery: "Conchichina" was the name Portuguese navigators gave to the southern region of Vietnam back in the year 1516! What or where on earth were the Scandinavians thinking when they gave such names to their traditional music?

## *Dança of Penguin*

**Comp.** : ?? (*Romenia*)

**Disc.** : Many Romanian wedding penguins on Youtube

**Notes** : A song from a Romanian cartoon that somehow made its way to Portugal as the 'Penguin Dance'. The dance has an even more convoluted history: it was choreographed at an American high school (Balboa High School in San Francisco) in 1952 and is called the 'Bunny Hop'. ## *Fado of the thorn*

**Comp.** : Trad. Portugal

**Disc.** : Mosca Tosca

**Notas** : This is likely an Algarve fado. The 'thorn' in the title appears to refer to the irritating, sharp object rather than the northern town of Espinho near Porto. It is performed by the folk group "da Luz de Tavira".

**Notes** : An excellent circle dance for the climax of the ball. Choreography by Shlomo Bachar in 1979. As is customary in Israeli dances, the tempo accelerates until it becomes difficult to dance... or play!

♩ = 130

The musical score is written in 4/4 time with a key signature of one sharp (F#). It consists of four staves of music, each with guitar chords indicated above the notes.

**Staff 1 (Measures 1-5):** Chords: C, F, C, Am, Em. The melody starts with a whole rest, followed by a quarter note G4, then a series of eighth notes: A4, B4, C5, B4, A4, G4, F#4, E4, D4, C4.

**Staff 2 (Measures 6-10):** Chords: G, D, Em, G, D. The melody continues with eighth notes: C4, B3, A3, G3, F#3, E3, D3, C3, B2, A2, G2, F#2, E2, D2, C2.

## Single : Horah Medura

### *Circle dance of the fire*

**Comp.** : Yoel Velba (Israel) in 1934

**Disc.** : Effi Natzer and his band

**Notes** : A circle dance, choreographed in 1963 by Yo'av Ashriel, always performed in a continuous line where no one changes places. 'Horah' comes from the Greek and means 'dance'. More recently, it has become a circle dance that extends from the Balkans to Israel. Horah is a type of dance, but in this case it is a choreography specific to this song; in other words, it is a single. The BPM is approximate, the music gradually speeds up until the music instrument has smoke coming out of it.

This is the tune that many dancers will never fail to request at the end of a gathering, dance, event or, perhaps, on a trip to the Moon. # Waltz 3T : Ashokan farewell

**Comp.** : Jay Ungar (USA)

**Disc.** : Jay Ungar

**Notes** : A simple waltz well known in the USA as it was used as the soundtrack for a documentary on the American Civil War. Interestingly, the title refers to a farewell at the annual Ashokan fiddle and dance gathering in the USA. By the way: the American Civil War took place in 1861-65, but the music was composed 130 years later, in the 1990s.
